

A vegetable oil to cure and protect ...

What is Cosm'Oil HEMP ?

COSMO'OIL HEMP is a hemp seed oil obtained by cold pressing the seed of this plant, Cannabis Sativa.

The oil is yellow to pale green due to the large amounts of chlorophyll found in the hemp plant.

ORIGIN

Hemp oil comes from the Cannabis Sativa plant (Family Cannabaceae), native to Central Asia or South Asia.

There is also mention of the Cannabaceae family in several early Chinese and Indian texts, especially in the Shen nung pen Ts'ao king, the oldest collection dealing with medicinal plants.

ADVANTAGES

Hemp seed oil has very interesting properties in cosmetics. It is useful for the protection of the skin, as the treatment of acne but also for hair care. She is also very interesting in the field of dietetics. This oil is a treasure for your skin, your hair and your health in general.

Anti-inflammatory

Fatty acids, especially omega-3s, contribute to the anti-inflammatory properties of hemp oil. They help to soothe irritation and inflammation caused by acne, for example.

Moisturizing, softening

It penetrates the skin quickly for a moisturizing and nourishing effect. It is also used in hair care to nourish dry hair deep and get shiny and flexible hair.

Antioxidant

Hemp seed oil contains a sufficient amount of antioxidants, including vitamin E and beta-carotene, which help maintain healthy skin
